Summary

As a Full Stack Developer, I specialize in both front-end and back-end technologies, including JavaScript, Node.js, MySQL, HTML, and CSS. I have a strong passion for building scalable and efficient web applications, ensuring smooth performance and great user experience. With a problem-solving mindset and adaptability to new technologies, I thrive in dynamic development environments. Whether it's designing interactive user interfaces or managing databases and server-side logic, I am committed to delivering high-quality solutions that drive success. I look forward to working with innovative teams and taking on new challenges in software development.

Projects

Tic Tac Toe
https://github.com/shreya8081/Tic-Tac-Toe
This is a simple implementation of the Tic Tac Toe game using HTML, CSS, and JavaScript.

QR code
https://github.com/shreya8081/QR-code
This is a simple QR code generator web *application* that allows users to input text and generate a QR code.

Restaurant Landing Page

https://github.com/shreya8081/Restaurant

This is a HTML and CSS code for a restaurant landing page. The page features a responsive design, a navigation menu, a hero section with a slideshow, and a footer with social media links and copyright information.
